BRASS

PRESSURE COOKER

A brass pressure cooker is a strong and durable cooking vessel made from brass. It heats evenly and cooks food quickly. It is long-lasting and commonly used in traditional kitchens.

HARD ANODISED COOKWARE SET

A hard anodised cookware set is made from specially treated aluminum that is strong and long-lasting. It has a non-reactive surface, making it safe for cooking all types of food. The cookware heats evenly and is resistant to scratches and corrosion. It is ideal for everyday cooking and easy to maintain.

STAINLESS STEEL PRESSURE COOKER

A stainless steel pressure cooker is a durable and efficient kitchen appliance designed for fast cooking using high-pressure steam. Made from high-quality stainless steel, it resists rust, corrosion, and staining while ensuring even heat distribution. It helps save time and energy by cooking food up to 70% faster than traditional methods.
